Old Business

Jurisdictional Support
for Chronic Project

Seminole Co Update

HUD 2018!!

Details, please....

- ▶ All grants fully renewed
 - Award amounts reflect increase in Fair Market Rent (FMR)
 - While HUD will adjust (up or down) for changes in FMR, it does not increase services or operating costs based on cost of living, inflation, etc.

- ▶ DV CES Bonus project (\$16K)

Florida Comparisons

FL507 had the 6th largest % increase of the 27 Florida CoCs

FL507 had the 2nd largest \$ increase of the 27 Florida CoCs

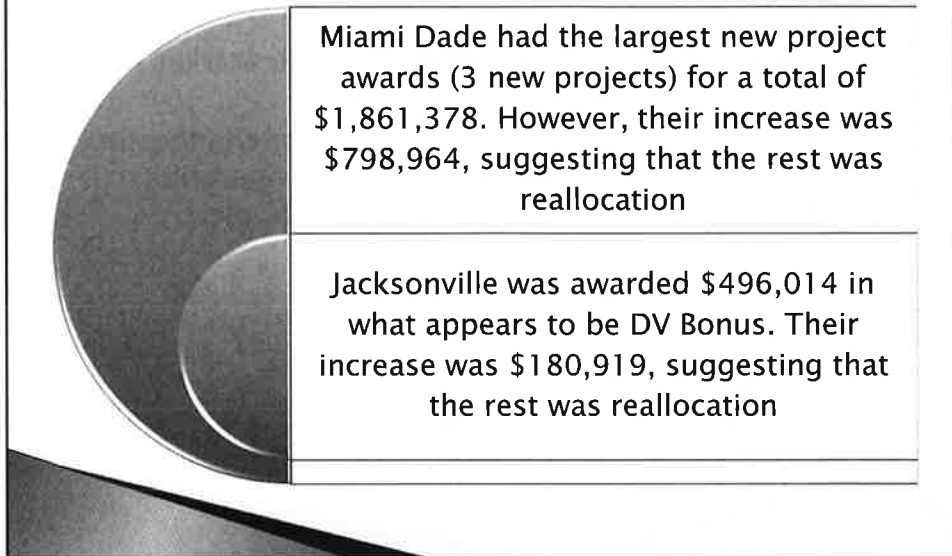

One FL CoC had an error on their application and lost all funding

The State had potentially been eligible for roughly \$20M in Bonus (DV and regular)

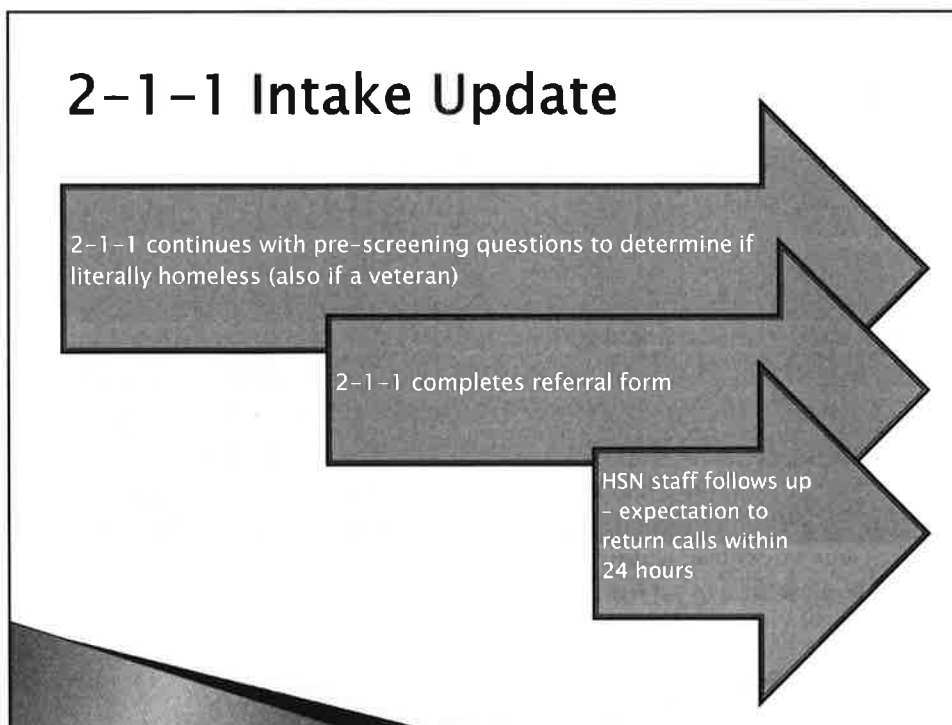

Statewide there were \$3.96M in new project funding

- Of that, it looks like roughly \$1M was from reallocation
- It can be hard to tell from the data currently available since many increases were connected to increase in FMR

More Insights from Florida

2-1-1 Intake Update

CoC Plan

Required by DCF for March 29 submission

Using the System of Care regional plan that has grown out of the Alignment Committee work as the structure to maximize uniformity with other regional conversations (draft in your packet)

Resource Allocation & Coordination Committee approved project types to be included

Planning Committee meets next week and will approve or adjust the draft planning document

CoC Board will be asked to approve Planning Committee recommendation via email prior to the next CoC Board meeting

Other Regional Efforts

Osceola Co CoC members meeting

Will be scheduling one in Seminole - coordinating date with the County
